## Rosenholm

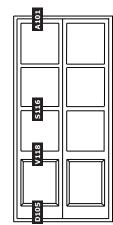

### **Outward opening window**

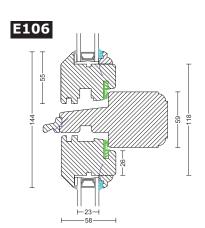

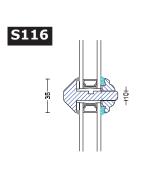

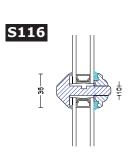

Outward opening French door

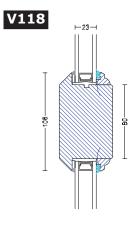

An outward opening window and door system which is both modern and traditional at the same time. The construction is based on Scandinavian craftsman traditions resulting in robust and very functional windows and doors.

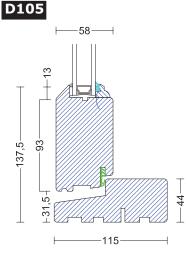

### Slim profiles

Extremely slim profiles with the optional choice of different profiles and traditional brass hardware makes this window suitable for renovation. In new builds the aesthetically beautiful, slim profiles create an excellent natural lighting. Alternative modern transoms, mullions and glazing bead profiles may be found under Accessories page 31.

# B102

French door with hardwood threshold

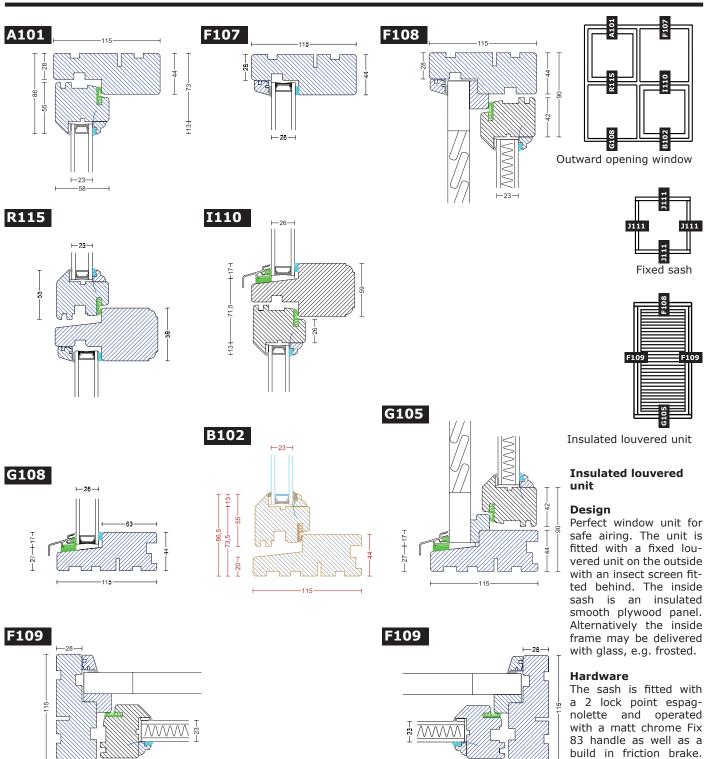

### Combination units

This construction leaves room for new thinking and different architecture, as the combination options are simply endless. All types are produced according to your wish in respect of design, size, colour and accessories.
